Our philosophy is a special one... Write Happy & Share the Fun!™ is the way you write your words to create happy stories.

Smile when you write and the words you write will be happy because the thoughts you have *are happy*.

Do you smile when you are happy or does smiling make you happy?

Try smiling and you'll see you just can't help but feel happy!

*Happy teachers encourage students to attain their goals.
Happy students accomplish their goals and set new ones.*
